

THOROGOOD

Profile: Tech Consultant

Eligible departments: All

Expected CGPA criteria: 6.5 and above

Process involved: 4 steps; OT, PI (in campus), Full Day Activities (in Bangalore), Final Interview

TEST DETAILS:

- **Mode of test:** Offline
- **Preparation:** Practice as many Case Studies as possible
- **Step 1 – OT:** General Aptitude and Essay writing
- **Step 2 – PI 1:** Completely based on Resume, extracurricular activities, and communication skills. No coding Questions.
- **Step 3 – Activities:** In Bangalore from 9AM to 5 PM. Case studies, presentations, Pathfinding, etc activities are used to test you.
- **Step 4 – PI 2:** For those who got selected. They discuss about work.

JOB DETAILS:

A typical day in the role:

Should work on Azure tools, Data visualization tools (like MS cloud services, Power BI, Tableau) using Python or SQL. Projects like Regression, Analysis, Forecasting, etc are to be done.

Expectations vs Reality?

Expectations and Reality both are the same. The work is challenging.

The work culture, employee benefits, etc about the company.

One of the best companies for non-technical branches. Pay and work culture is good. People have lot of learning Opportunities. Gives you Exposure and Confidence.

Advice:

To get into Thorogood you need to be good at your communication and analytical skills. Try to solve as many Case Studies as you can. Coding Knowledge is not really necessary for the selection, but it will be an added advantage. Company will train you if you have Zero coding knowledge after getting selected.

Rahul Mishra, batch of 2020 – Chemical Engineering.
