Neptunus

The role offered: Project Engineer
Eligible branches: B. Tech. & M. Tech

- The process involved: HR Interview (No test or technical round)

Key point:

- They conduct a pre-placement presentation where they tell about their company and questions are asked based on that. They look for people who are outgoing/proactive and having extracurricular help.

Job details:

- The office is run by owners and the work culture is more of proprietorship. After some time the amount of learning begins to saturate and they allot to a department where there isn't much work. The company was going through a financial crisis due to the pandemic and many people were laid off.
